The One Event You Can't Miss

Are you a prepaid or wireless services provider seeking the best B2B event to showcase your solutions and grow your business?

ALL WIRELESS & PREPAID EXPO

Where Wireless & Prepaid Meet

Since 2008, **All Wireless & Prepaid Expo** has been the premier event for prepaid wireless and value-added services. When it comes to prepaid wireless – from MVNO hosting partners and back-end technology, to top up and retail distribution, no other event brings more prepaid providers together under one roof. AWPE currently serves all companies in the wireless space, and includes more players than ever from diverse industry sectors, including accessories, repair, technology, insurance, financing, software and more.

On the retail front, AWPE 2025 brought in more retailers than ever, with 67% of our attendees being wireless dealers, repair shops and electronics retailers.

As of today, **All Wireless & Prepaid Expo** is the largest and most inclusive event for companies in wireless telecommunications, showcasing products and services across all segments and distribution channels.

Device Repair

Today, all wireless retailers need to learn about repair. Over the last five years, according to “Cell Phone Repair in the US Industry Market Research Report,” the cell phone repair industry has grown exponentially, as smartphone and tablet usage have increased. Due to the high prices for today's smartphones and devices, more people are opting to fix, rather than replace. If you aren't offering repair services, this event will get you on track, connecting you to companies in all facets of device repair.

Wireless Accessories

What is the common thread between all things wireless? Mobile accessories! Whether prepaid, postpaid, new or refurbished, consumers are on an endless hunt for the newest add-ons for their devices. According to Future Market Insights' recent report, “Mobile Phone Accessories Market By Product Type,” the mobile phone accessories market was valued at US \$86.6 Billion in 2021. The market is likely to grow at a CAGR of 6.7% through 2031, reaching US \$166 Billion. The US continues to hold 78% of total sales in North America.

As a wireless provider, it is vital for you to offer the newest, trendiest and most desired accessories the industry has to offer. **All Wireless & Prepaid Expo** brings these innovations to you - one room, hundreds of revenue-generating opportunities. Don't miss your chance to boost your business with the latest and greatest mobile accessories on the market today.
