* Kingston Flash Cards are designed and tested for compatibility with consumer-grade market products. It is recommended that you contact Kingston directly for any OEM opportunities or special use applications that are beyond standard daily consumer usage. For more information on intended use, please refer to the Flash Memory Guide at kingston.com/flashguide.

1 SDHC/SDXC memory cards are not compatible with all standard SDHC or SD-enabled devices consult device user guide to ensure compatibility.

2 Some of the listed capacity on a Flash storage device is used for formatting and other functions and thus is not available for data storage. As such, the actual available capacity for data storage is less than what is listed on the products.

3 Speed may vary due to host and device configuration. Canvas Go! Plus SD and microSD designed with proprietary technology to reach read speeds beyond UHS-I 104MB/s specification, up to 170MB/s. Full performance requires MobileLite Plus Reader.

4 IEC/EN 60529 IPX7 certified for protection against continual water submersion up to 30 minutes at a depth up to 1m.

Withstands temperature range from -25 °C to 85 °C. Based on MIL-STD-883H, METHOD 2002.5 military standard test method. Protected against X-ray exposure based on ISO7816-1 guidelines.
